InfaERP - Cloud based ERP for Indian SMBs

InfaERP provides a real time business information system for Ready Mix Concrete companies by integrating ERP and GPS based fleet management solution.

InfaERP is a web based ERP solution for small and mid-sized businesses that integrates all the business functions across your organization - Sales and marketing, Customer relationship management, Financials (with Tally reporting compatibility), Warehouses and production management, Purchasing, HRM and Business Intelligence.

Why InfaERP?

InfaERP was built with the objective of providing an easy to use and cost effective ERP solution that provides immediate bottom line benefits to your organization.

- key aspects

Improve operational efficiency

Store all your sales, operations, financials, CRM, inventory data at one point and retrieve with ease.

Intelligent and quicker decision making

With all your business data at your finger tips and intelligent reporting to decipher the same, you can respond better to the changing business landscape.

Rapid Deployment

Our easy to use interface means quicker time to speed for your staff and less overhead during the deployment phase.

Zero maintenance

With the option for cloud deployment, forget all the maintenance overhead and concentrate on your business profitability.

Modules

InfaERP is a comprehensive business management solution that offers much more than your basic accounting software . Our USP is in the easy to use interface and the advanced reporting tools that will motivate easy adoption without much changes to your existing workflows
